

**PERFORMANCE ASSESSMENT RESULTS for 2014-2015**  
**(Annual Submission Required)**

The college's local plan should reflect activities/projects that address Perkins Performance Standards that do not meet the state's Postsecondary Perkins Performance levels. Information will be used to inform appropriate technical assistance, on-site visits, and/or local Federal Program monitoring visits.

If a performance standard is not met, the college must explain why and the actions taken to improve performance on the following page. Once a college has met the state performance standards, they must maintain or show continuous improvement each year.

Directions: Provide the college's actual performance levels for 2014-2015 for all completers.
