

1. Please describe yourself:

		Response Percent	Response Count
Student		60.7%	179
Full-time faculty		8.5%	25
Administrative/professional faculty		5.1%	15
Full-time classified staff		12.9%	38
Part-time/Adjunct/Clinical faculty		9.5%	28
Part-time staff		3.4%	10
Other (please specify)		0.0%	0
		answered question	295
		skipped question	1

2. What is your primary LFCC location?

		Response Percent	Response Count
Middletown Campus		73.3%	217
Fauquier Campus		24.7%	73
Luray-Page County Center		1.7%	5
High School/Dual Enrollment		0.0%	0
Other (please specify)		0.3%	1
		answered question	296
		skipped question	0

3. For each of the following practices, please indicate whether you do it personally, whether LFCC should teach/promote it, and whether LFCC should implement it on campus:

	I personally do this	LFCC should teach/promote this	LFCC should implement this	Response Count
Recycle paper	80.1% (225)	67.3% (189)	58.4% (164)	281
Recycle cans	80.6% (225)	66.3% (185)	56.3% (157)	279
Recycle plastic bottles	78.2% (223)	65.3% (186)	56.1% (160)	285
Recycle plastic bags	72.0% (193)	63.4% (170)	51.9% (139)	268
Recycle magazines and newspapers	72.5% (192)	68.3% (181)	58.1% (154)	265
Recycle phone books	65.0% (171)	68.8% (181)	53.6% (141)	263
Recycle glass	68.9% (184)	65.9% (176)	56.2% (150)	267
Recycle electronics	49.8% (126)	71.5% (181)	56.1% (142)	253
Safely dispose of hazardous waste (paint, oil, aerosol cans, batteries, etc)	62.9% (168)	65.9% (176)	53.2% (142)	267
Compost yard waste	54.1% (119)	61.8% (136)	45.5% (100)	220
Landscape with native plants only	30.2% (52)	72.7% (125)	55.2% (95)	172
Car pool 1+ day per week	27.5% (49)	76.4% (136)	38.2% (68)	178
Buy organic materials	59.1% (110)	64.0% (119)	41.4% (77)	186
Use compact fluorescent (CFL) or LED light bulbs	78.0% (195)	53.6% (134)	54.0% (135)	250
Use skylights/daylighting to reduce daytime energy use	50.9% (113)	62.2% (138)	60.8% (135)	222
Own at least one Energy Star appliance	77.8% (193)	53.2% (132)	42.3% (105)	248
Use geothermal heating/cooling	6.3% (11)	76.6% (134)	58.3% (102)	175
Drive an alternative fuel powered vehicle	9.3% (15)	80.7% (130)	49.1% (79)	161
Use solar power for heat	3.8% (7)	79.0% (147)	61.3% (114)	186

Use a solar powered hot water heater	2.3% (4)	81.7% (143)	61.7% (108)	175
Use clean/renewable energy sources other than solar (wind, etc)	6.8% (12)	80.8% (143)	62.7% (111)	177
Make efforts to reduce water use (collection w/ rain barrels, greywater reuse, etc)	39.8% (86)	72.7% (157)	61.6% (133)	216
Make efforts to reduce energy use	80.7% (218)	62.2% (168)	64.8% (175)	270
Make efforts to reduce printing	75.1% (178)	65.8% (156)	62.0% (147)	237
Make efforts to reduce carbon footprint	62.4% (133)	73.7% (157)	66.2% (141)	213
Purchase recycled office paper	55.4% (134)	60.7% (147)	67.4% (163)	242
Purchase energy efficient computers and printers (Energy Star, EPEAT Silver, etc)	47.0% (110)	62.4% (146)	67.9% (159)	234
Deal with environmentally responsible businesses/vendors	36.8% (81)	74.5% (164)	68.2% (150)	220

Page 1, Q2. What is your primary LFCC location?

1 On-line class

Apr 13, 2011 5:00 PM

Page 1, Q6. If you ranked "Other" in your top three, please describe.

1 I will join the Committee fine sir

Apr 26, 2011 11:03 PM

2 LFCC should get some of the waterless urinals like they have in VDOT rest stops...they would save 1 gallon of water per flush.

Apr 25, 2011 10:23 PM

3 Focus on making the students literate, give them a useful skill/trade that they may support themselves, teaching them to think for themselves (ie LOGIC) and question what is to find the truth.

Apr 25, 2011 10:04 PM

4 Cutting consumption to create less waste. less packaged/processed foods, etc.

Apr 25, 2011 3:38 PM

5 use rainwater collection systems for outside use.

Apr 21, 2011 12:27 PM

6 LFCC already has recycling stations throughout the Middletown campus -- I feel that we are already promoting green and some of the survey questions implied that we needed to implement instead of continue.

Apr 15, 2011 3:04 PM

7 We need to reduce the amount of wasted paper from over printing from power point.

Apr 14, 2011 3:04 PM

8 Lfcc doesn't seem to be making more than a poor effort at recycling and energy saving practices. They have bins, but trash is strewn in them. Paper recycle bins are not clear at what paper can be put in them likewise, and there is always garbage in them. Most of the time the garbage and recycling is not even collected enough and it pours over onto the floors. Lfcc should start a environmental group to help initiate this and even maybe in the future move to making buildings powered partially with solar power. It could always be a student project to help advance knowledge and environment.

Apr 13, 2011 10:38 PM

9 With all of the printing done at LFCC, a two sided printer should be used.

Apr 13, 2011 4:27 PM

10 Perform an energy audit of existing college buildings [excluding new ones] to

Apr 12, 2011 6:56 PM

Page 1, Q6. If you ranked "Other" in your top three, please describe.

determine fundamental structural inefficiencies that might be addressed cost effectively. Once determined, develop a plan and implement it.

Page 2, Q9. Do you have any ideas to improve LFCC's communication about sustainability?

1	It's more about what LFCC DOES than what LFCC SAYS it does. I don't believe that LFCC has a communication problem, per se, but the college should work on implementing more energy-efficient and environmentally-aware practices, especially in areas such as efficiency in heating/cooling and electricity use, and local/sustainable agriculture.	May 17, 2011 10:13 AM
2	let people know about the web page	May 17, 2011 10:11 AM
3	No	May 17, 2011 10:11 AM
4	Solar & wind power for more services, composting for food containers (plastic ware, cups, & to-go boxes made of biodegradable products.	Apr 28, 2011 9:56 PM
5	N/A	Apr 28, 2011 3:19 PM
6	Posters.	Apr 27, 2011 5:35 AM
7	Not at this time.	Apr 26, 2011 9:56 PM
8	I didn't even know there were sustainability pages on the LFCC website, so any communication would be good.	Apr 26, 2011 10:06 AM
9	Have it be a part of every activity at LFCC--offer healthy sustainable local organic foods at events, use recycled paper, demonstrate sustainable practices like composting. Make recycling bins more abundant and clearly labeled. The underlying theme of LFCC's operation should be sustainability.	Apr 26, 2011 10:01 AM
10	Sustainability handouts	Apr 26, 2011 9:39 AM
11	no	Apr 25, 2011 10:24 PM
12	?	Apr 25, 2011 10:17 PM
13	No	Apr 25, 2011 6:42 PM
14	Posters around campus. For students, a "how to" and encouragement to use the recycling bins properly and committedly. For the administration and faculty, use the energy wisely (turn off computers in library at night, turn out lights in classrooms that aren't being used, auto light switches in bathrooms, etc.	Apr 25, 2011 5:58 PM
15	No	Apr 25, 2011 5:10 PM
16	Solar power??	Apr 25, 2011 3:41 PM
17	Emails, posting information on digital screens and bulletin boards, employee challenge/contests?	Apr 25, 2011 3:03 PM

Page 2, Q9. Do you have any ideas to improve LFCC's communication about sustainability?

18	-	Apr 25, 2011 2:38 PM
19	For example, AST 101 required to copy and save to file all typing homework. Could e-mail homework to Prof. and save 3 reams of paper per student per semester.	Apr 21, 2011 12:31 PM
20	I didnt know about it until the quiz. i know that lfcc recycles, because the bins are placed around campus, but when do you really see things encouraging enviromentally friendly practices?	Apr 18, 2011 2:02 PM
21	Have professors make announcements in the classrooms	Apr 16, 2011 3:20 PM
22	Use Facebook. And the sustainability page should be more visible and easier to navigate to. (I have attended LFCC. for about 7 semesters and did not know they had one. Where is it?)	Apr 16, 2011 1:18 AM
23	Using simple flyers / posters can help to inform students about simple "first step" choices in sustainability / energy efficiency.	Apr 15, 2011 7:34 PM
24	Begin using solar power as an energy source.	Apr 15, 2011 6:00 PM
25	There should be minimally as many recycling cans to every trash can and stonger inforcement of paper recycling such as cans that have paper sized slots in each class room so that the recycling cans don't turn into trash cans. Also, if there were more educational programs geared towards environmental conservation and enginerring of renewable energy sources, it may encourage the community to start and complete more renewable energy projects rather than fighting them or allowing them to die.	Apr 14, 2011 8:23 PM
26	Not at this time.	Apr 14, 2011 3:05 PM
27	no	Apr 14, 2011 2:30 PM
28	More promotion and more implementation. recycling bins are great, but some people don't use them. A way to recycle glass would be nice. Maybe adding a recycling dumster for students or even the community would help increase efforts to be more sustainable. Using solar and/or wind energy would reduce costs and carbon footprint for the school.	Apr 14, 2011 10:56 AM
29	Nope, you don't need to add to the noise the media is making about 'green'.	Apr 14, 2011 8:39 AM
30	No	Apr 14, 2011 7:18 AM
31	Host more seminars/lectures on different relevant topics	Apr 14, 2011 6:59 AM
32	Don't make it a request - make it mandatory to recycle glass, plastic and paper at the very least.	Apr 14, 2011 12:53 AM
33	No ideas	Apr 13, 2011 10:45 PM
34	Do it more in school. Posting something on a webpage that people most likely do not see is useless. Have an event or a presentation, do something.	Apr 13, 2011 10:40 PM
35	no	Apr 13, 2011 9:28 PM
36	No.	Apr 13, 2011 8:40 PM

Page 2, Q9. Do you have any ideas to improve LFCC's communication about sustainability?

37	No	Apr 13, 2011 7:31 PM
38	Do it	Apr 13, 2011 7:01 PM
39	Recycled community letter	Apr 13, 2011 6:31 PM
40	This survey is a start. I think you should form the committee, draft a sustainability plan and also form a student organization to promote sustainability. But the student organization is just for good feelings and intentions, with some good action thrown in there. Most of the work needs to be dealt with by the committee and the drafters of the plan, by those who are paid to care, paid for their time on this. Money is a good motivator, student's good intentions and little efforts will not bring about big change at LFCC in this department. Paid administration must take the lead here. Also, a quick way to promote your beliefs is to display them. For instance: Re-do the student lounge with sustainable materials. Makeover the entire school with low VOC paint. If you make sustainability look good, positive, then people will picking up on the visual cues, and want to explore the issue more in depth to see what further change they can produce. Make environmental causes and sustainability tangible not just conceptual and sentimental.	Apr 13, 2011 6:14 PM
41	Send students emails periodically. More information on boards, booths at entrances. Come out to the community	Apr 13, 2011 5:45 PM
42	Create campus awareness- reach out to students.	Apr 13, 2011 4:41 PM
43	Put posters up, hold seminars and have teachers explain to their students the first day of class.	Apr 13, 2011 3:36 PM
44	Promote friendly reminders yearly to educate new people and keep reminding everyone that it is important.	Apr 13, 2011 2:48 PM
45	Put up solar panels on the roof.	Apr 13, 2011 2:19 PM
46	1. Training for all employees. 2. Have and share--in person--our plan. (From the President) 3. Create a culture that promotes environmental friendliness and reduces our use of energy---simple stuff, like EVERYONE turning off lights if they are the last person in a room 4. Get the students engaged 5. Share facts like this one, as our B & G team members who actually pick up trash around campus, shared that they estimate we spend between \$5,000 and \$7,000/year just on the Middletown Campus to pick up trash that is dropped out doors in parking lots and around our buildings---including cigarette butts and just plain old trash dropped for no reason.	Apr 13, 2011 9:06 AM
47	An interactive college-wide professional development event concurrent session option. Messages on the flat screen. College-wide celebration of Earth Day, as student activity event with a speaker per campus.	Apr 12, 2011 7:06 PM
48	All garbage cans and recycling bins in classrooms need to be uniform with the same labels on them to help students and faculty understand and easily use the appropriate disposal method. All common areas need to have garbage cans located next to plastic recycling, aluminum recycling, and paper recycling bins, all of which are the same size and clearly marked. All computer labs need to have a paper recycling bin next to the printer. There needs to be a paper recycling bin next to every photocopier.	Apr 12, 2011 4:29 PM
49	Yes	Apr 12, 2011 3:30 PM

Page 2, Q9. Do you have any ideas to improve LFCC's communication about sustainability?

50	materials could be prepared for class use?	Apr 12, 2011 3:28 PM
51	Let everyone know what is going on.	Apr 12, 2011 2:36 PM
52	Get more students involved	Apr 12, 2011 2:19 PM
53	Publicity in the local newspapers (not just in the Valley.) If we do most of the items on this list we should be examples and publicity should come to us.	Apr 12, 2011 1:14 PM
54	Hosting lectures from experts in the sustainability field for students, faculty and employees.	Apr 12, 2011 1:05 PM
55	Cut back on library printing. Have faculty offer the nursing/bio students the outline and study guides on a CD/thumb drive to purchase. Limit printing-have students pay for it.	Apr 12, 2011 12:46 PM
56	Quartely e-newsletter?	Apr 12, 2011 12:39 PM
57	Add an RSS feed to the website (this goes for the whole LFCC website in general, actually).	Apr 12, 2011 12:36 PM
58	Faculty members print too much. They should rely more on technology-blackboard, online. Not everything has to be printed.	Apr 12, 2011 12:30 PM
59	Live it- use recyclable materials in food services, bookstore, classrooms	Apr 12, 2011 12:25 PM

Page 2, Q11. Are there other challenges or impediments to LFCC's sustainability efforts? Please describe.

1	Students/staff/faculty who don't follow sustainable practices at home will be unlikely to use sustainable practices on campus. (If you shop at Walmart for your family, it's unlikey that you'll appreciate your school spending more to get higher quality sustainable education materials, building materials, energy sourcing, etc....and Walmart is pretty popular around here.)	May 17, 2011 10:13 AM
2	Not that i dont think students or even the community wouldnt be interested or care for their world. But when it comes to forums and guest speakers, I dont think many will attend. But do feel many will particiapte in other activites like recycling and energy efficiency more if more promoted, espically by professors.	May 17, 2011 10:12 AM
3	no	May 17, 2011 10:11 AM
4	n/a	Apr 28, 2011 3:19 PM
5	No	Apr 27, 2011 5:35 AM
6	Dont' know	Apr 26, 2011 9:56 PM
7	Lack of interest and knowledge is a huge problem, so educating the students AND faculty is very important. Unfortunately, there is nothing sustainable about vending machines, so finding a way to "green" the inevitable has to happen-- show the students and faculty that there is always a more sustainable choice.	Apr 26, 2011 10:01 AM

Page 2, Q11. Are there other challenges or impediments to LFCC's sustainability efforts? Please describe.

8	?	Apr 25, 2011 10:17 PM
9	No	Apr 25, 2011 6:42 PM
10	N/A	Apr 25, 2011 5:10 PM
11	Sustainability efforts should not be done for financial gain, it should be done with the expectation that you are setting an example for a healthier planet. If people feel the need to be paid in order to address the well-being of the planet...they do not deserve the money.	Apr 25, 2011 3:42 PM
12	Other than money i dont think it is an issue	Apr 25, 2011 3:41 PM
13	Sustainability efforts are lacking initiative.	Apr 20, 2011 6:23 PM
14	Two things: 1) the word is shoved down our throats over and over again (the recycling bins, with signs EVERYWHERE), without the backup info (CFL is not as good as it is made out to be.) 2) Not enough information about other options for green energy are made available.	Apr 18, 2011 8:09 PM
15	There are many times that I go into the restroom to find that the light had been left on by the prior user. Another issue is the heating and cooling of the building. Often the outer sections of the main building are much colder than the main section -- in both summer and winter.	Apr 15, 2011 3:08 PM
16	Just the usual resistance of change	Apr 14, 2011 8:23 PM
17	I don't know what problems there are or could be, but funding might be a challenge, especially to add solar or wind energy. Since being environmentally sustainable is becoming more of an issue in the 21st century, interest shouldn't be a problem.	Apr 14, 2011 10:56 AM
18	Making sustainability efforts cohesive throughout every campus.	Apr 14, 2011 9:12 AM
19	School does no openly advertise sustainability efforts.	Apr 14, 2011 7:18 AM
20	Buildings were built with extremely high ceilings and many windows, but no solar panels or skylights. The focus was not on the best use of space or energy savings.	Apr 14, 2011 12:53 AM
21	faculty attitude is mostly one of that who doesn't care.	Apr 13, 2011 10:40 PM
22	no	Apr 13, 2011 9:28 PM
23	No.	Apr 13, 2011 8:40 PM
24	Awful smell at LFCC Campus. Smells like a petroleum leak	Apr 13, 2011 6:31 PM
25	I think the general societal paradigm...although it is changing-it is still a slower process.	Apr 13, 2011 5:48 PM
26	no	Apr 13, 2011 4:54 PM
27	Maybe there are not enough recycling trashcans.	Apr 13, 2011 3:36 PM
28	Why do we use the blue recycle plastic containers for trash? Two containers side	Apr 13, 2011 2:48 PM

Page 2, Q11. Are there other challenges or impediments to LFCC's sustainability efforts? Please describe.

	by side well labeled should be used to keep up the effort for recycling.	
29	Same as is the case with so many things: everyone working here has so many things to do already, that we have to truly have a shared vision about what things are important to tackle and manage. To date, sustainability has not been a priority. If this is added as a priority, a suggestion as to what thing/things are being moved down the priority list would be helpful for us all.	Apr 13, 2011 9:06 AM
30	The Barn at the Fauquier campus is a big energy waste - little or no insulation. Needs to be upgraded.	Apr 12, 2011 2:36 PM
31	Getting folks to be informed and care about doing the right thing! Cost factor! Workforce has an energy grant; let's implement their training here!	Apr 12, 2011 1:44 PM
32	Getting things started and getting over the hurdle and groans. Once it's established, it should become second nature. And once we are committed and moving, we may find it's not as expensive as we anticipate. Perhaps we do it because it's right and then find unexpected rewards.	Apr 12, 2011 1:14 PM
33	The number one challenge to sustainability is lack of desire/interest/time.	Apr 12, 2011 12:37 PM
34	Needs to be an important priority for leadership and communicated as such	Apr 12, 2011 12:25 PM

Page 2, Q12. Do you have any other comments about sustainability at LFCC?

1	no	May 17, 2011 10:11 AM
2	n/a	Apr 28, 2011 3:19 PM
3	No	Apr 27, 2011 5:35 AM
4	No	Apr 26, 2011 9:56 PM
5	The ideas are great. Don't let money/government keep you from doing these things. Sustainable practices are more important than money! LFCC cares about the future and so sustainable practices are a must!	Apr 26, 2011 10:01 AM
6	no	Apr 25, 2011 10:17 PM
7	It is good that there are recycle bins for glass and paper on campus. I think some people use too much printer paper in the library and some of it is not schoolwork. I don't know how to make people more responsible - through education perhaps?	Apr 25, 2011 7:49 PM
8	I believe that the college should look in to solar and energy efficient products only to keep cost low at the college, and recycling keeps taxes low in the community. We can not save this planet, but I do agree with trying to keep it clean.	Apr 25, 2011 7:17 PM
9	No	Apr 25, 2011 6:42 PM
10	The school really needs to promote recycling and energy conservation among	Apr 25, 2011 5:58 PM

Page 2, Q12. Do you have any other comments about sustainability at LFCC?

	the student body and faculty. It also needs to be readily available all over campus, so it facilitates compliance.	
11	N/A	Apr 25, 2011 5:10 PM
12	Way too much waste of paper and energy.	Apr 20, 2011 6:23 PM
13	I believe LFCC's Middletown campus has some great minds that should be tapped when it comes to this subject. I've had 2 brilliant professors that have great knowledge on this subject. With their input, administrative cooperation and implementation, and with student participation, it wouldn't take any time to change the way LFCC uses energy. I bring the students into the equation b/c it was such a shame to see that new building being erected without the help of the engineering students. That would have been a great way for students to get "hands-on". I have seen some very silly occurrences on behalf of the administration at that campus the past 2.5 years.	Apr 18, 2011 8:12 PM
14	certain ways of advertising defeats the purpose of saving paper...	Apr 18, 2011 2:02 PM
15	I think that it would help if the SGA. and the LFCC. clubs should unite and promote this common the efforts of sustainability. This would help to promote more awareness for the need to implement it, have fresh, innovative ideas and a greater amount of the student body involved in the efforts-thus helping to make the faculty and leadership of LFCC. more aware of the need to implement these efforts.	Apr 16, 2011 1:18 AM
16	I know that the campus does more than I am aware of but really putting it out in the forefront and empasizing what is being and what could be done could change that.	Apr 14, 2011 8:23 PM
17	Promoting and implementing more ways of sustainability would increase interest. Adding a public recycling center woud make it convenient for students and local community members to be environmentally friendly.	Apr 14, 2011 10:56 AM
18	Green mania getting to you, huh?	Apr 14, 2011 8:39 AM
19	This the first I've heard about it.	Apr 14, 2011 7:18 AM
20	Temporary trilers are not a solution. We need more classrooms and work areas, including recreation and food service, in a more effecient building. We need a person to step forward and reach out for grants and investments from some of the well to do county residents that would like a new place to hang their name - on a new green building (including auditorium, gymnasium).	Apr 14, 2011 12:53 AM
21	get it done.	Apr 13, 2011 10:40 PM
22	no	Apr 13, 2011 9:28 PM
23	No.	Apr 13, 2011 8:40 PM
24	N/A	Apr 13, 2011 6:31 PM
25	Do not let this sustainability movement begin with the students, you must start this, you must keep this going, you must declare that this is what LFCC stands for. LFCC is good as it is, but it could be great if you made these changes. Don't be a cynic. Also, don't rely on a student forum to tell you what changes they'd	Apr 13, 2011 6:14 PM

Page 2, Q12. Do you have any other comments about sustainability at LFCC?

like to see made, so you can only make the changes that please people. Step up and make the best decisions for yourself. Ask yourself: What is best for the earth, what is feasible with the budget... what is the best thing that I can do right now? If you don't know, ask up, i.e. ask someone with experience, and knowledge. Put someone in charge of this committee that is for the issue more than they are for just being a good committee leader. This needs to be someone who can see the big picture and is more concerned with that than they are catering to the small concerns and preferences that will amount to nothing but "Oh, how nice." reactions, like planting a tree or recycling cell phones.

- | | | |
|----|---|-----------------------|
| 26 | Yes! I think we should be leaders and jump in with both feet. Look at the human resources we have! I have been thinking this since I set foot here for the first time-4 years ago. | Apr 13, 2011 5:48 PM |
| 27 | I think LFCC is doing a very good job. I also think that when/if a new building is being built implementing simple energy-saving elements such as sky-lights or geothermal should be a consideration. | Apr 13, 2011 5:00 PM |
| 28 | I am aware of efforts for recycling on campus | Apr 13, 2011 4:54 PM |
| 29 | We should do what we say we are doing - like actually recycle, as opposed to empty all canisters into the same garbage bag at the end of the day. | Apr 13, 2011 2:07 PM |
| 30 | Multiple alternative energy sources is where the future lies for students and their families, and for us all. We need to take the obvious and easy steps of recycling/ reduce usage, which each person can easily do at home and at school. At the same time we need to begin examining and implementing alternative energy technology as those technologies allow and push for states to give credits / buy back energy from individuals who generate power and are hooked into the grid. If people are given the opportunity, many will choose alternative energy. In the future, people will not have a choice. We must live by our motto "Your Future Our Focus" and in doing so lead by example with regard to alternative energy, recycling, and any other "green" endeavors. | Apr 13, 2011 10:17 AM |
| 31 | We all know that making this effort is the "right" thing to do! I'm confident that students would get engaged with effective support and leadership. Likewise, if our college moves to a culture of being truly focused on cost reductions by energy smart means and recycling, it would make a positive difference for the bottom line. Our employees simply need the "aha" moment to catch on and engage with basic sustainable practices. Thank you for listening. | Apr 13, 2011 9:06 AM |
| 32 | Place paper recycling bins in every classroom and beside every trash can elsewhere. Make it easier to recycle cardboard and magazines at LFCC. No place to do so in faculty workroom, for example. | Apr 12, 2011 2:36 PM |
| 33 | At the very least, emphasis recycling. Every trash can I pass seems to contain recyclable items when the proper containers are just steps away. Every staff and faculty member should have a box (or whatever) beside his/her desk for paper which they (not maintenance) would periodically empty into the larger boxes. We also need more explicit instructions: should plastic bottles be emptied and uncapped, what kinds of paper, etc can be recycled, etc.. Emphasize turning off lights and fans when not in use, turn off computers at night, (also printers where possible??). | Apr 12, 2011 1:44 PM |
| 34 | It has to be consistent and expected of everyone. | Apr 12, 2011 1:14 PM |

Page 2, Q12. Do you have any other comments about sustainability at LFCC?

35	I could probably name at least 20 to 30 ways that I could cut energy cost for the Middletown and Fauquier campus's but creature comforts always seem to come first.	Apr 12, 2011 12:58 PM
36	if considering alternative fuel vehicles, consider Compress Natural Gas over battery/hybrid	Apr 12, 2011 12:37 PM
37	It has to be intentional and a priority, starting with leadership and B&G.	Apr 12, 2011 12:25 PM
38	this should be low priority. Money/time should go directly to students/teaching support	Apr 12, 2011 12:21 PM
